SUBJECT INDEX

Acrylic polymers
coatings, aqueous 22
dispersions with glutaraldehyde, as syntans 368
foam, coatings, for leather and leather substitutes 487
laminates with polyurethanes and textiles, as leather substitutes 357
textiles impregnated by, as leather substitutes 353
Adhesion of blood platelets to collagen 87
Adhesives, alkali-bark-aldehyde-tannin reaction products as 451
Aggregation of sulfonated dyes in solution 98
ALCA
Auditing Committee Report 405
Audit Report 244
Business Meeting Minutes 436
Call for Papers for 1978 Annual Meeting 47
Call for Papers for 1979 Annual Meeting 522, 545
Candidates for the 1978 Election 79
Circulation Breakdown 347
Committee Reports; *see* specific committees
Council Meeting Minutes 42, 181, 402, 518
Directory Changes 186, 295, 348, 522
Fred O'Flaherty Award to Joseph T. Hernon 400
Hazard Alert on Hydrogen Sulfide 292
Highlights of the Seventy-Fourth Annual Meeting 397
John Arthur Wilson Memorial Lecture Announcement 186
LEXPO '79 486
President's 1978 Convention Opening Remarks 398
Prize Paper for 16th IULTCS Congress 294, 345

Program for 1978 Annual Meeting 230
Proposed Budget for 1978 184
Status of the Association 347
ALCA-ASTM Joint Committee
meeting minutes 178, 443
report of 437
Aldehydes, reaction products with alkali-treated bark and tannins, as adhesives 451
ALFORD, PETER M., Biography 290
Alkyl sulfonates, fatliquors, containing chromium sulfate for tanning 496
Alum, tanning with, of collagen sausage casings 353
Aluminum chloride sulfate, basic, tanning with 496
Aluminum salts, tanning with 194, 495
Amines, in beamhouse treatment 353
Amino acids, complexes with chrome 112
Aminoplasts
bactericidal finishes containing 355
preparations containing collagen 356
reaction products with phenolsulfonic acid, as syntans 367
Ammonium chloride, in unhairing, sludge reduction by 408
Amylase, insolubilization of, tropocollagen as matrix in 96
Analysis of pickled skins 136
Antibacterial activity, determination of, on leather surface 192
Aspartic acid in tooth dentine, racemization of, aging and 192
Atherosclerosis, collagen characterization and cell transformation in human .. 191
Avaram bark in E. I. tanning 548

Bacteria, counting of, in wastewater 126
Bactericides, leather finishes containing 355
Bark, alkali-treated, reaction products with aldehyde and tannins, as adhesives 451
Bating
acid and alkaline, of glace kid 133
hydrogen sulfide prevention in 52
simultaneously with unhairing 353
Beamhouse
amines and proteinases in 353
effluent, solid removal and recycling of 356
enzymes in 100
hide damage by interrupted operations in 304
hide processors in 141
hydrogen sulfide hazards in 52

lime-free unhairing 149
low-lime unhairing 145, 408
mixers in 190
practices and problems, symposium on 140
proteinases in 361
sulfide recycling in 147
trouble shooting in, quick tests for 222
Belts, leather, for textile machines 487
Biological degradation of organic matter by activated sludge 90
Blood
platelet aggregation, collagen solution for determination of 357
platelets, adhesion of, to collagen 87
Boast, David, Biography 515
Bone
collagen 3-dimensional packing in 49
resorption of, collagenase-induced, prostaglandin mediation of 192
Bouchard, Jon W., Biography 290
Brine, removal of, from hides 449
Buckman, Stanley J., Obituary 517

Cares, Charles J., Biography 175
Carpets, fur, manufacture of 362
Cellulose acetate butyrate, finishes from polyurethanes and 490
Chamois tanning with fish oil and linseed oil 550
Chemical properties of leather 53
Chlorides, acidic, in tanning pretreatment 495
Chlorine dioxide in treatment of vegetable tannery effluent 303
Chondrogenesis, stimulation of, by collagen and procollagen 192
Chromatography
gas, of natural lubricants 350
gel, of chrome liquors 301
molecular sieve 138
of naphthalene sulfonate-formaldehyde 53
Chrome
complexes, alkali effect on particle size of 301
complexes with amino acids 112
complexes with collagen, stabilization of 127
determination of, in tan liquors 299
fixation of, optimization of 88
in leather, correlation with strength 121
recovery of, from solid tanning wastes 493
recovery of, from wastewater 453

removal of, from chromium plating effluent 300
removal of, from leather by hydrogen peroxide 53
removal of, from wet blue stock 48
in tannery wastewater, environmental effects of 370
Chrome liquor
electrophoresis and chromatography of 301
infrared spectra of masked chromium complexes in 547
recycling of, salt concentration and 128
Chrome tanning
cottage scale pit process for 248
dicarboxylic acids in 450
of blue chrome leather 99
plan for tannery for 304
recent progress in 98
trouble shooting in, quick tests for 222
yeasts in 6
CLUTHE, CHARLES E., Biography 40
Coating materials
acrylic polymer foams, for leather and leather substitutes 487
aqueous, acrylic polymers as 22
crosslinking of, by radiation 56
thickness of, effect on gloss 378
Coating process, precision roll, in finishing 471
Cod oil, oxidized, collagen fiber modified by 546
Collagen
adhesion to, of blood platelets 87
in bone, 3-dimensional packing of 49
characterization and cell transformation of, in human atherosclerosis 191
chondrogenesis stimulation by 192
complexes with chrome, stabilization of 127
crosslinking of soluble, by sulfonyl chlorides 127
fiber, in aqueous suspension 91
fiber, mechanical properties of 387
fiber, oxidized cod oil-modified 546
fiber, recovery of, by various processes 547
fiber, shrinkage temperature of, in various heating media 549
fiber, water absorption by modified 132
fibrils, orientation of, during aging 193
fibroblast adhesion to, glycoprotein effect on 192
graft polymerization on, of polysulfides 100
graft polymerization on, of vinyl monomers 298
methyl-esterified, urease immobilization by 546

methyl methacrylate-grafted 550
methyl methacrylate-grafted, dyeing of 548
molecular packing of, ionic clustering in 191
native, synthesis of, by liver parenchymal cells 192
nuclear magnetic resonance of hydrated, cross relaxation and spin diffusion 49
oxidizing agent effect on 89
peroxidase-treated, dityrosine formation in 549
preparations containing aminoplasts 356
reactions with dicarbonyl compounds 96
sausage casings, alum tanning of 353
shrinkage kinetic of, determination of 128
soluble, containing serum albumin, for test of blood platelet aggregation 357
trichloro-s-triazine-treated, urease immobilization by 547
Collagenase
activation of, by proteinase 87
bone resorption induced by, prostaglandin mediation of 192
inhibition of, by serum proteins 192
production by fibroblasts, Cytochalasin B in 131
production by rheumatoid synovial cells, stimulation of 49
Color changes in wet blue leather 54
Comfort properties
of leather and substitutes, in footwear 307
of upper leather 90
Compressed air in leather goods manufacture 130
Compressed air systems, equipment for 163
Corrosionproofing of metals, tannins in 352
Coupling agents in dyeing and printing with azo dyes 488
Crosslinking
in finishes 350
of photographic gelatin 363
of polymeric coatings, by radiation 56
of soluble collagen, by sulfonyl chlorides 127

Fatliquor
alkyl sulfonates, containing chromium sulfate for tanning 496
anionic emulsifiable products of fatty esters and modified oils 248
determination of, in leather, by chromatography 350
oils, containing phenolic resins, for retanning 492
petroleum sulfonates in 131
sulfonated, for fur and leather 354
sulfonation of, thermometric titration of 87
Fatliquoring
with anionic emulsifiable products of Indian indigenous oils 94
trouble shooting in, quick tests for 222
Fats in leather, correlation with strength 121
FEAIRHELLER, STEPHEN H., Biography 433
Fibroblasts
adhesion to collagen, glycoprotein effect on 192
collagenase production by, Cytochalasin B in 131
Finishes
aminoplast-bactericide-epoxy resin 355
cellulose derivatives and polyurethanes 490

crosslinking of 350
polyurethanes as 280, 447
Finishing
of blue chrome leather 99
leather surface treatment 134
with polyester-urethanes 131
with polyurethanes 447
by precision roll coating 471
Fish in wastewater test of median tolerance limit 80
Fish oil in chamois tanning 550
Fleshing
feed-through operation for 447
machines for 493, 527
Flocculants in wastewater treatment 70
Formaldehyde
-naphthalene sulfonate, chromatography of 53
reaction products with phenolsulfonic acid and urea, as syntans 363
Food, hide proteins as 87
Foot comfort in leather and substitutes 307
Fungicides
2-(thiocyanomethylthio)benzothiazole, for leather 498
4-tolyl diiodomethyl sulfone, for leather 492
Fungus, tannin degradation by 193
Fur
carpets and garments 362
cleaning and glazing of 353
decoration of, by painting 489
dressing of, polymeric foams in 495
dyeing of 351
physical testing of 51
solvent processing of 449
sulfonated fatliquors for 354

Garments, fur, manufacture of 362
Gelatin, photographic, crosslinking of 363
Genetics, vertical fiber hide defect in relation to 458
Gloss of coated leathers, finish thickness effect on 378
Glutaraldehyde
chemically modified, retanning with 250
dispersions with acrylic polymers, as syntans 368
tanning with 88
Glycoproteins on fibroblast surface, adhesion to collagen in relation to 192

Goatskin
hair-on processing of 549
mange effect on 422
rapid vegetable tanning of 298
Graft polymerization
of methyl methacrylate on chrome sheepskin leather 530
of methyl methacrylate on collagen 550
of methyl methacrylate on sheepskin 410
of polysulfides on collagen 100
of vinyl monomers on collagen 298
of vinyl monomers on leather 133
GREENE, THOMAS E., Biography 119

Hair, morphology of human 131
Health hazard of hydrogen sulfide 52, 292
Heating, high-frequency, in leather manufacture 130
HERNON, JOSEPH T., Fred O'Flaherty Award to 400
Hide damage
in beamhouse, by interrupted operations 304
by pulling machines, vertical fiber defect in relation to 537
Hide defects
demodectic mange in goatskins 422
trouble shooting of, quick tests for 222
vertical fiber, genetics in relation to 458
vertical fiber, hide puller damage in relation to 537
Hide Powder Committee, report of 439
Hide processor
in conventional beamhouse operations 141
machine as 449
with resilient support of skins 359
Hides
brine removal from 449
fleshing and splitting of, feed-through operation for 447
fleshing machines for 493
grain layer thickness of 207
limed, sulfide determination and removal from 52
liming of, mixers in 190
liming of, reproducibility in 127
machine for processing 449
pickled, analysis of 136
preservation of, short-term 136

proteins of, nutritional value of 87
salting of, by drumming 53
shrinkage temperature of, apparatus for 97
solvent processing of 449
tentering frames for 368
Hydrocarbons, stuffing with polyethylene wax and 360
Hydrogen peroxide in chrome removal from leather 53
Hydrogen sulfide
health hazards of 292
health hazards of, in beamhouse 52
prevention of, in deliming and bating 52

Impregnation of leather with polymers 448
Ionic clustering in molecular packing of collagen 191
IULTCS
Announcement of 16th Congress 406
fastness tests 136
papers presented at 14th Congress at Barcelona, Spain 99
Report of Physical Testing Commission 48
Tannery Wastes Commission meeting 128

Jawasee
enzymes of, tanning with, rapid, of kips 298
enzymes of, in unhairing 248

KALLENBERGER, WALDO E., Biography 40
Keratin
urease immobilization by 546
of wool, globular and dissolved proteins of 87
Keratinocytes, human epidermal growth factor and 49
Konnam bark in E. I. tanning 548

Leather
antibacterial activity on surface of, determination of 192
belts for textile machines 486
binding strips for shoes 491
box sides 131
from buffalo hides 135
chemical and physical properties of 53
chrome fixation in, optimization of 88
chrome removal from, by hydrogen peroxide 53
chrome shavings, degradation of, buried in ground 97
chrome sole, cottage scale pit process for 248

color changes in wet-blue 54
comfort of, in footwear 307
composites with polymers, thermoformable 130
crust, trouble shooting in, quick tests for 222
dust removal from, air-blast machine for 362
dyeability of wet-blue stock 48
dye fastness of, lubrication effect on 89
dye penetration in, determination of 448
dyes for 48, 129
elongation and tensile strength of, determination of 136
enzymes in manufacture of 133
fatliquor determination in, by chromatography 350
from fresh and brined hides 136
from fresh and salted hides 137
glutaraldehyde-retanned 250
goatskin, mange effect on 422
grain and split, manufacture of 456
grain layer thickness of, processing effect on 207
laminates with polyurethanes and polyvinylidene chloride 364
manufacture of, reproducibility in 127
moistening and conditioning machine for 494
process control in manufacture of 93
processing machine for 453
seawater in manufacture of 53
side, with check pattern and flower design 95
softening machine for 454
softy transistor case, from sheepskins 299
sole, physical properties of, locational differences in 190
strength of, correlation with chrome and fat content 121
suede, quality control of 50
suede, from wet-blue splits 131
upper, comfort properties of 90
upper, lastability of 128
upper, physical properties of, locational differences in 191
upper, shape retention of 302
upper, from wet salted cowhides 133
viscoelastic properties of 137
Leather goods
defects in 130
manufacture of, compressed air in 130
Leather industry
environmental protection in 53
high-frequency heating in 130

in India 95
in Mongolia 92
oils and oil products in 135
in Pakistan 87
phosphorus compounds in 132
in Poland 130
quality control in 97
research in 134
Leather substitute
acrylic polymer-impregnated textiles 353
acrylic-polyurethane-textile laminate 357
coatings for, acrylic polymer foams as 487
colored synthetic suede 451
comfort of, in footwear 307
elastomer composite as 454
embossed synthetic suede 452
finishes for, cellulose derivatives and polyurethanes 490
leather-polymer composites, thermoformable 130
leather-polyurethane-polyvinylidene chloride laminates 364
plastic laminates as 455
plastic-polyurethane-textile laminate 365
plastic-textile laminate 355
in Poland 130
polybutadiene 366
polyurethane 352, 366
polyurethane-textile laminate 364, 366
poromeric 130
poromeric, viscoelastic properties of 137
shape retention of 302
suede, from plastic-synthetic fiber laminates 491
from synthetic rubber and fillers 363
synthetic suede 351, 450, 456
yarn fabric 355
LINDSAY, MARDEN I., Obituary 345
Linseed oil in chamois tanning 550
Liver, parenchymal cells of, native collagen synthesis by 192
LOKANADAM, B., Biography 394
Lubricants, chromatography of 350
Lubrication, dye fastness in relation to 89
Lymphocyte factor, stimulation by, of collagenase production 49

Manganese in sulfide removal from wastewater 126
Mange, demodectic, effect on goatskins 422

Mechanical properties of collagen fibers 387
Melamine resins, foam, in fur dressing 495
Metals, corrosionproofing of, tannins in 352
Methyl methacrylate
collagen grafted by, dyeing of 548
graft polymerization of, on chrome sheepskin leather 530
graft polymerization of, on collagen 550
graft polymerization of, on sheepskin 410
Microwaves in drying of leather 92
MILLER, BRUCE D., Biography 175
Mimosa, tanning with, sodium sulfate pretreatment for 190
Mixers in beamhouse 190
Molecular packing of collagen, ionic clustering in 191
Morphology of human hair and wool 131
Myrobalan from various areas of India 135

NANDY, S. C., Biography 433
Naphthalene sulfonate-formaldehyde, chromatography of 53
Neutral salts in pickling, effect on shrinkage temperature of pigskin 300
New Uses of Collagen Committee, report of 440
Nitrocellulose, finishes from polyurethanes and 490
NOCKER, WOLFGANG, Biography 343
Notes for contributors 2
Nuclear magnetic resonance of hydrated collagen 49

Obituary
Buckman, Stanley J. 517
Deasy, Clara L. 177
Lindsay, Marden I. 345
Twining, Ralph H. 486

chromatography of 350
in leather industry 135
containing phenolic resins, for fatliquoring and retanning 492
Optimization of chrome fixation 88
Orientation of collagen fibrils during aging 193
Oxazolidines, tanning with 496
Oxidizing agents, reactions with collagen 89

Pan-American Standards Committee, report of 441
Penetration of tanning liquors through gelatin and hides 248
Peroxidase, collagen treated by, dityrosine formation in 549
PESHEVA, MARIA, Biography 119

PETERS, DAVID E., Biography 343
Petroleum sulfonates as dispersing and emulsifying agents 131
Phenolic resins
foam, in fur dressing 495
containing oils, for fatliquoring and retanning 492
phosphated, in leather waterproofing 365
Phenolsulfonic acid
reaction products with aminoplasts, as syntans 367
reaction products with urea and formaldehyde, as syntans 363
Phosphates, acidic, in tanning pretreatment 495
Phosphorus compounds in leather industry 132
Photography, gelatin for, crosslinking of 363
Physical properties
of leather 53
of sole leather, locational differences in 190
of upper leather, locational differences in 191
Physical testing
of furs and leather 51
IULTCS Commission report on 48
Pickling
of pigskins, neutral salts in, effect on shrinkage temperature 300
swelling of sheepskins at neutral pH 138
Pigskins
hide structure, degreasing and tanning of, dyeing in relation to 50
shrinkage temperature of pickled, neutral salts effect on 300
unhairing of, pancreatic enzymes in 49
Plastics
laminates, as leather substitutes 455
laminates with polyurethanes and textiles, as leather substitutes 365
laminates with synthetic fibers, suede-like 491
laminates with textiles, as leather substitutes 355
Polyalkylenimine in tannin migration prevention in wood 492
Polybutadiene as leather substitute 366
Polyester-urethanes, finishing with 131
Polyethylene wax, stuffing with hydrocarbons and 360
Polyisocyanates in dressing of leather 354
Polymers
composites with leather, thermoformable 130
impregnation by, of leather 448
Polysaccharide-tannin preparations, for immobilization of proteins 494
Polysulfides, graft polymerization of, on collagen 100

Polyvinylidene chloride, laminates with leather and polyurethanes 364
Potassium oleate in fur cleaning and glazing 353
PRENTISS, WILLIAM C., Biography 40
Preservation of hides, short-term 136
Printing of leather with azo dyes 488
Process control in leather manufacture 93
Procollagen, chondrogenesis stimulation by 192
Prostaglandins, mediation by, of collagenase-induced bone resorption 192
Proteinase
  activation by, of collagenase 87
  bacterial and fungal, in beamhouse 361
  in beamhouse treatment 353
Proteins
  globular and dissolved, of wool keratin 87
  of hides, nutritional value of 87
  immobilization of, tannin-polysaccharide preparations for 494

Quality control
  in leather industry 97
  of suede leather 50

Rawstock Committee, report of 441
Research Liaison Committee, report of 441
Resorption of bone, collagenase-induced, prostaglandin mediation of 192
Rolling machines for leather 357

Salting by drumming 53
Samming, chrome leather properties in relation to 132
SANJEEVI, R., Biography 394
Sausage casings, collagen, alum tanning of 353
SAYERS, ROBERT, Biography 175
Seawater in leather manufacture 53
Serum albumin, soluble collagen containing, test for blood platelet aggregation 357
Serum proteins, collagenase inhibition by 192
Sheepskin
  graft polymerization of methyl methacrylate on 410
  medical shearlings, washfastness of, sulfate effect on 333

rapid vegetable tanning of 298
swelling of, pickling effect on 138
SHIRAI, KUNIO, Biography 77
Shoes
comfort of 129, 130
insoles, from synthetic rubber 363
leather binding strip for 491
wear trial tests for 130
welding of plastic stiffeners in, by ultra-high-frequency field 490
Shrinkage kinetic of collagen, determination of 128
Shrinkage temperature
automatic apparatus for determination of 97
of chrome leather, coordinated sulfate and 91
of collagen fibers in various heating media 549
of pickled pigskins, neutral salt effect on 300
Silicone oils in fur cleaning and glazing 353
Silicones, epoxy, in dry cleaning of leather 489
Snakeskin, white tannage for 134
Sodium hydroxide in chrome liquors, effect on particle size of chrome complexes 301
Sodium sulfate, pretreatment with, for mimosa tanning 190
Soil filtration, virus removal by, in wastewater treatment 193
Solvents in processing of furs and hides 449
Specification Review Committee, report of 442
Splitting, feed-through operation for 447
Staking machine for leather 360
Streptomyces, enzymes from, in unhairing 361
Stuffing with hydrocarbons and polyethylene wax 360
SUGUMAR, M., Biography 434
Sulfates
acidic, in tanning pretreatment 495
coordinated, in chrome leather, shrinkage temperature and 91
leather washfastness in shearlings in relation to 333
Sulfide Committee, report of 443
Sulfides
determination and removal of, in limed hides 52
recycling of, in beamhouse 147
removal of, from wastewater 126
removal of, from wastewater, manganese and neutralization in 126
Sulfonation of fatliquors, thermometric titration of 87
Sulfonyl chlorides, crosslinking by, of soluble collagen 127

Swelling of sheepskins, pickling effect on 138
Symposium on modern beamhouse practices and problems 140
Synovial cells, collagenase production by rheumatoid, stimulation of 49
Synthetic fibers
laminates with plastics, suede-like 491
nonwoven, laminates with plastics, as leather substitutes 355
Synthetic rubber
in leather substitutes 363
shoe insoles from 363
Synthetic tanning materials 367
acrylic polymer-glutaraldehyde dispersions 368
aminoplast-phenolsulfonic acid condensates 367
phenolic resins, containing oils, for fatliquoring 492
phenolsulfonic acid-urea-formaldehyde 363
statistical comparison of 30
water-soluble 351

Tanners' Council Research Laboratory, fund drive for 396
Tanning
with aluminum and zirconium salts 194, 495
alum, of collagen sausage casings 353
bag process for 248
with basic aluminum chloride sulfate 496
E.I., with avaram and konnam bark 548
with glutaraldehyde 88
with oligomeric polyurethanes 527
with oxazolidines 496
of pigskins, dyeing of garment suede and Nubuk in relation to 50
rapid, of kips with Jawasee enzyme 298
rapid vegetable, of goatskins and sheepskins 298
re-, compact process for 53
re-, with modified glutaraldehyde 250
solid wastes from, chrome recovery from 493
wastewater from, tannin minimization in 508
white, of snakeskins 134
zirconium 137
Tanning extracts, machinery for manufacture of 99
Tanning liquors, penetration of, through gelatin and hides 248
Tanning materials
chrome, containing alkyl sulfonates, for simultaneous oiling 496
chrome, from chromium plating effluent 300
myrobalan 135

Tanning materials analysis, chrome, by chromatography 299
Tanning pretreatment
with acidic salts 495
with chromium-free materials 456
with sodium sulfate, for mimosa tanning 190
Tannins
condensed, degradation of, by fungi 193
in corrosionproofing of metals 352
in Egyptian local plants 94
migration in wood, prevention of, by polyalkylenimine 492
minimization of, in tanning effluent 508
-polysaccharide preparations, for immobilization of proteins 494
reaction products with aldehydes and alkali-treated bark, as adhesives .. 451
TAYLOR, HAROLD H., Biography 290
Tensile strength of leather, determination of 136
Terpene oils in fur cleaning and glazing 353
TETREAULT, HERBERT A., Biography 40
Textile printing with azo dyes 488
Textiles
laminates with acrylic polymers and polyurethanes, as leather substitutes 357
laminates with plastics and polyurethanes, as leather substitutes 365
laminates with polyurethanes, as leather substitutes 364, 366
machines for, leather belts for 487
nonwoven, acrylic polymer-impregnated, as leather substitutes 353
yarn, as leather substitutes 355
2-(Thiocyanomethylthio)benzothiazole, fungicides, for leather 498
THORSTENSEN, THOMAS C., Biography 228
4-Tolyl diiodomethyl sulfone, fungicides, for leather 492
Toxicity, determination of, of water pollution 86
Trichloro-*s*-triazine, collagen treated by, urease immobilization by 547
Trocopollagen as matrix in insolubilization of amylase 96
TWINING, RALPH H., Obituary 486

Ultrafiltration in treatment of tannery effluent 304
Ultraviolet light, crosslinking by, of polymeric coatings 56
Unhairing
ammonium chloride in, sludge reduction by 408
autolytic enzymatic 548
enzymes from *Streptomyces* in 361
Jawasee enzymes in 248
lime-free 149

lime-sulfide, treatment of effluent from 493
low-lime 145
low-sulfide, no-lime 190
of pigskins, pancreatic enzymes in 49
simultaneously with bating 353
sulfide recycling in 147
Urea, reaction products with phenolsulfonic acid and formaldehyde, as syntans 363
Urea polymers foam, in fur dressing 495
Urease
immobilization of, by keratin 546
immobilization of, by methyl-esterified collagen 546
immobilization of, by trichloro-*s*-triazine-treated collagen 547
Urethane polymers
as finishes 280, 447
finishes from cellulose derivatives and 490
foam, in fur dressing 495
laminates with acrylic polymers and textiles, as leather substitutes 357
laminates with leather and polyvinylidene chloride 364
laminates with plastics and textiles, as leather substitutes 365
laminates with textiles, as leather substitutes 364, 366
leather substitutes 353, 366
oligomeric, tanning with 527
